Previous to 1976 area/regional representation was Northern California Intergroup. A.S.C. formed in '76 to represent area code 707. This proved to be too large an area geographically speaking so in '83 A.S.C.'s came about that more accurately represented meeting concentrations. Hence the creation of S.C.F.N.A. (Sonoma County Fellowship of Narcotics Anonymous). Center of this area is the city of Santa Rosa where most meetings are held.
