

SO YOU LOVE AN ADDICT

Special Note:

After careful review and much discussion, this committee voted to recommend to the Conference as a whole in 1979 that "So You Love An Addict" not be approved as a piece of N.A. literature. A letter was sent to W.S.O. to let them know what this recommendation would be, and recommending to W.S.O. that printing and distribution of this I.P. be shelved, at least for the time being.

The group felt that this was a fine piece of literature, but not N.A. literature. It is not directed toward the addict at all, but rather toward his family. It was felt that there might be a need for something like this in some later literature, perhaps in a book with a section directed toward the family, and that N.A. ought to hold onto it for use in such a book - but that in the meantime it ought to be deleted. A similar piece, but one aimed at the addict and his adjustment to the family in sobriety would be more appropriate for N.A. literature.

Also, one member made a strong objection to the mention of Families Anonymous, pointing out that there is no connection between this group and Narcotics Anonymous, and wished to recommend that, whatever is done with this I.P. in the future, the mention of Families Anonymous ought to be dropped.
